Boost your tips with TipPro on Network POS terminals

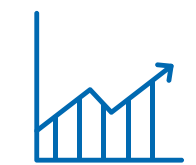

INTRODUCING THE POWER OF TIPPRO

Now, when processing a transaction, TipPro allows merchants to display pre-defined tip percentages, such as 5%, or 10%, or the option to custom enter the Tip amount, or even “No Tip”, on Network POS terminals. Customers can easily select the appropriate tip amount (displayed in % as well as the actual value) that fits their preference, enhancing their overall experience at the point of sale.

KEY BENEFITS FOR YOUR BUSINESS:

Increased Efficiency: With tip percentages displayed upfront, staff can process transactions faster, reducing wait times and boosting customer satisfaction.

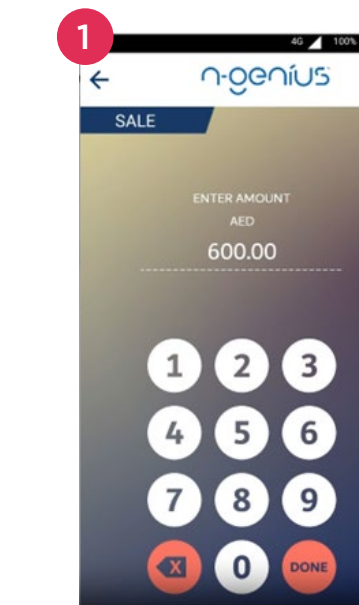

Enhanced Experience, Increased Revenue: TipPro’s user-friendly interface empowers customers to select their tip percentage, leading higher tips and happier staff, directly impacting bottom line and driving profitability.

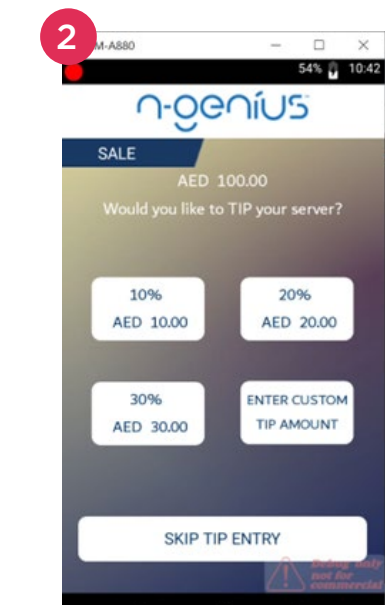

Improved accuracy: The automated nature of TipPro minimizes manual errors, ensuring staff receive tips promptly and accurately, without any discrepancies.

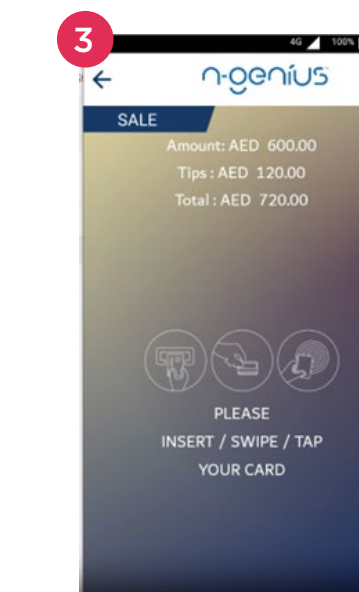

HOW DOES TIPPRO WORK?

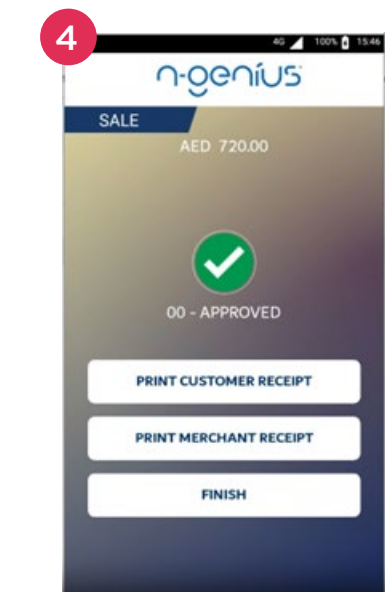

Merchant enters the transaction amount

POS terminal screen will display three options:
a) Select pre-defined tip % (5%, 10% etc.)
b) Custom enter TIP amount
c) No Tip

The screen will display transaction amount, tip amount and total transaction amount

Transaction is approved

Activating TipPro is just one call away. Kindly reach out to your **Relationship Manager** to enable the **TipPro** feature on your Network POS terminals.

Experience the future of tipping convenience with TipPro on Network POS terminals.

Network International. **Ready, steady, grow.**
